Cat Extermination Bill Is Rejected

St. Paul.—Fame cats will not be made wild cats in Minnesota, at least not by legislative action. This was made certain Friday by publication of the report of the state senate's committee on game and fish, which killed a bill to declare all cats, tame or otherwise, "wild cats" and confer on game wardens the power of exterminating them. It was also learned the bill was a nuisance and disease spreader, but the committee couldn't see it.

DOCTOR EXAMINED IN \$5,000 ACTION

Adverse examination of Dr. Thomas P. Shinnick, Beloit physician, begun Friday for \$5,000 each by Frank and Ida Greenwood, Beloit, was held before Court Commissioner, M. P. Richardson. Shinnick is joint defendant with Dr. W. J. Allen in the malpractice suit. The latter is in Florida.

A hearing under the discovery statute in the suit over a note of Albert Austin against Dr. Shinnick, began at Academy hall Monday night. A concert will be given by the Edgerton band from 8 to 9.

The monument circle was entered at the home of Mrs. N. E. McEntee, Rollin street, Thursday afternoon.

Martin Oberdeck has returned from Wentzville, Mo., where he was called by the illness and death of his sister.

Miss Elizabeth Anderson entertained the Zeta Phi at her home Thursday night.

L. W. Peterson, Albion, Pa., began the crushing of time Thursday to be used by farmers in his neighborhood.

Mrs. Willard McChesney entertained the Bridge club Thursday afternoon. Mrs. Frank Kellogg won high score.

Andrew McIntosh has been receiving at Academy hall Monday night.

Both actions will be tried in Rock county circuit court.

POST OFFICERS TO ATTEND CONFERENCE

Commissioners W. R. Clark and Adjutant George DeBruin, of the Richard D. Dill Post of the American Legion will leave Saturday morning for Milwaukee to attend the annual mid-winter conference of Wisconsin post officers. The conference, lasting Saturday and Sunday, will be the presence of National Commander Alvin Owsley.

DR. SQUIRES HERE FOR TALK, SUNDAY

Advocate of Religious Education in Schools Will Give Address.

Members of the board of Education, school teachers, church and Sunday school leaders, of all denominations, have been given a special invitation to attend the community meeting in the Congregational church at 7:30 Sunday night when Dr. W. A. Squires, New York City, will give an address on "Plans for Weekday Religious Education." Following the address there will be an open discussion of the subject. The general public is invited.

The address will be given with the problem of religious education from a non-sectarian standpoint, and will be of interest to those of both the Catholic and Protestant faiths. Dr. Squires is one of the foremost religious education leaders of the country. Local religious leaders who have heard him state that he is an able and interesting speaker.

The open discussion will deal with plans for a week-day religious education program for the pupils of the junior and senior high schools.

Bubblers, Gifts of Classes, Installed

Two ornamental drinking fountains are being put in on the first floor of the new high school building. They are the gifts of classes of 1919 and 1920 to the school and were arranged for at the time of graduation.

Each fits in a niche of the wall which until now has been bare. They are uniform, of an attractive design, with a marble slab to go above them bearing the inscriptions. They will be completed in a few days.

Other drinking fountains in many places throughout the building, are of white enamel and are of the latest design, the stream of water being shot out from one end of the basin and emptying through a hole in the bottom. Cleanliness and sanitation are thus assured.

GRAIN

Chicago Review.
Chicago.—The outstanding feature of the grain market at the outset, wheat took a general upward swing in price during the early hours. The principal strength was in the May delivery, in which eastern interests were said to have large contracted holdings. Selling at the start appeared to be of a local speculative character and with the offering readily absorbed by houses with eastern connections the market soon advanced. The opening wheat was in demand and figures to 15c lower, with May 1.20 1/2 @ 1.21, and July 1.13 1/2 @ 1.14 1/2, followed by a general decline. In the absence of any aggressive selling, corn and oats were held steady. The corn market showed slight general gains. Oats started unchanged. The high bid for May 75 1/2 @ 76 1/2, and for July 74 1/2 @ 75 1/2. Later all months showed gains.
Announcement that Turkey refused to revoke her ultimatum against allied warships at Smyrna led to general purchasing and to a material advance in prices, but later reported that an agreement had been reached averting hostilities was responsible for a reaction in values disappeared. The close was unsettled, 1/4 @ 1 1/2, not higher, with May 1.11 1/2 @ 1.12 1/2, and July 1.11 1/2 @ 1.12 1/2.
All deliveries of corn surpassed previous prices in a good deal of detail. The market, however, eased down when wheat turned weaker. The close was unchanged, 1 1/2 @ 1 1/2, and for May 75 1/2 @ 76 1/2.
Higher quotations of hogs gave a firmness to the provisions market.

SCHOOL ALARM BOX SYSTEM PROPOSED

Protection of Children and Buildings Being Discussed by Board Members

To further safeguard the lives of the several thousand pupils attending Janesville schools, the board of education is giving serious consideration to the proposal of one of its members—that fire alarm boxes be installed at the various school buildings, each within a few hundred feet of them.

Under existing conditions, it is pointed out, the nearest fire alarm box to several schools is a half block away. This, it is argued, in the event of a fire in one of the buildings several minutes might elapse before a box could be pulled. In the meantime the blaze might build up and the exits and trap the children inside the burning building. This might occur if it were impossible to telephone the department.

While the question of human life is of course the chief point involved, the prevention of loss of the buildings also enters into the discussion.

Boxes Are \$150 Each
The matter has been brought to the attention of the board of education by the board of fire commissioners. The board of fire commissioners has estimated the cost of such a move. Each alarm box costs \$150, making the total for the 11 schools \$1,650. It is believed, however, that the city could get along with fewer additions by changing the location of several boxes, while several are already located close enough to schools.

It is suggested that box 421, at the corner of Pleasant and High streets, be moved a block north to be midway between the old high and Lincoln schools. Boxes 422, Pleasant and Arch streets, outside the water main system, could be moved eastward on Pleasant street to care for the Grant school, while the Jackson school, with Spring Brook fire station so near, needs no box.

Box 49, at the corner of Holmes and South Jackson streets, is the nearest to the Graded school. The following five schools, however, the boxes are located a much greater distance from the buildings: Washington, Adams, Jefferson, Webster, and Deane. The school for the blind has its own box, 161.

The matter may come before the board of education meeting Monday night, when, if it is felt the need is pressing, a resolution may be passed asking the council to consider the matter.

Chief Makes Suggestions
While interested in the alarm box question, Chief Murphy says he is also greatly interested in making the buildings more fireproof by replacing shingle roofs with asbestos, "containing" outside entrances to boiler rooms and rebuilding the first floors with cement.

"This would cost a lot of money, but it is really worth it to protect the children in school. It is what we should do," said the chief.

Chief Murphy says the school board members are suggesting a no-parking zone on the side of South Main street, from Oakland to Racine, and on the north side of Racine, from South Main to the bridge, the streets bordering on the new school. While he favors the former proposal, he does not believe it necessary that the Racine street measure be carried through any further than to prohibit parking directly in front of the entrances.

KIWANIANS ASKED TO BOOST SCHOOLS

Consolidation of Rural Buildings Nation's Need, Says Hyer.

President Frank S. Hyer of White-water normal school, head of the Wisconsin Teachers' association, foremost advocate in the state of the consolidated school as a means to giving the boy and girl in the country the same opportunities educationally as those in the city, brought out some interesting points in regard to this subject at the Kiwanis luncheon Thursday.

He opened his talk by praising the Janesville high school, asking those present not to allow their boys to leave school until they had high school diplomas, for today there is not a worthwhile college or university in the country where a high school diploma is not required for entrance.

He criticized the introduction in the state legislature of a bill to lower the entrance requirements into the University of Wisconsin. He said that instead of lowering, the state should raise the standards. He spoke about the increase in the number of high schools in the state, stating that 52 years ago there were three high schools in the state. Today there are 353.

Getting down to the subject of consolidated schools, upon which he has been working 15 years, he said that it is an undisputed fact that the country boy and girl have not the same opportunities for schooling that those in the city have, although they have an equal right to it.

"In Rock county within three miles of the normal school is a typical country school, built 75 years ago and the same as it was then," said President Hyer, who gave examples of how nearly everything else has progressed in nearly every section and been improved except rural schools.

"In Port Atkinson is a factory covering three acres, where parlor furniture for cows is being made—where they make aluminum individual drinking fountains, and in many school children of the same community are drinking out of the wooden pail and the old dipper," said President Hyer.

Showing the contrast between the rural schools and the farms, Mr. Hyer said that in one day he visited 16 rural schools in Rock, Jefferson and Walworth counties with the state superintendent, who remarked that the school looked like they had been made from the same mold—all like box cars. Yet they could see silos in all directions which cost several times what one school building did.

He appealed to Janesville Kiwanians to take every opportunity they had when meetings and conventions were held here attended by those from the rural districts to throw the new school open for their inspection and then impress upon them the fact that their boys and girls are just as deserving of an education in such an institution.

President Hyer said that he didn't expect the consolidated school plan to be accepted in this state for many years, but told how it has swept over Iowa and other states. Referring to the legislature, he pointed out that with 50 per cent of the members farmers who had not the best educational advantages, they were naturally unresponsive to educational advances.

Bribe Charged in Milwaukee Court

Milwaukee—A \$2,000 bribe was given by Nathan Rubin, former wholesale liquor dealer, to Joseph Ray, former federal prohibition inspector, with the approval of Nelson A. White, former chief federal prohibition inspector, according to testimony given by Rubin before a federal court, where he and White are on trial on the charge of conspiracy to violate the Volstead act.

Winter Find You Tired and Achy?

DOES winter find you miserable with an aching back? Do you get up lame and stiff—lag through the day tired, weak and depressed? Do you know why you are so run-down?

There's good reason for your condition and likely it's weak kidneys. Winter's colds and chills throw a heavy burden on the kidneys. The kidneys fall behind and poisons accumulate. It's little wonder, then, that you suffer backache, rheumatic pains, headaches, dizziness and bladder irregularities.

Don't risk serious kidney disease. Use Doan's Kidney Pills before it is too late. Doan's have helped thousands and should help you. Ask your neighbor!

"Use Doan's," Say These Janesville Folks:

J. T. Waggoner, proprietor of furniture store, 21 S. River St., says: "I took cold and it settled on my kidneys. My bladder became very much inflamed. The kidney secretions passed too often, but seemed to be retarded. My back was weak and at times very painful. A member of my family suggested that I try Doan's Kidney Pills. I got a box and used them according to directions. They helped me from the first and when I had finished the second box, I was as well as ever."

Mrs. Wm. Powell, 302 N. Pine St., says: "I have had backache so badly I couldn't turn in bed. I had dizzy headaches and could see black specks before my eyes. My kidneys acted irregularly and I felt tired and nervous. After I got Doan's Kidney Pills at Sherer's Drug Store and began using them, relief followed. They toned up my system generally and I am pleased to recommend them."

ASH WEDNESDAY NEXT WEEK MARKS LENT'S BEGINNING

Ash Wednesday, herald of the beginning of Lent, which sounds the knell for cessation of social activities is but a week away, falling on Wednesday, Feb. 14. Religiously considered, Ash Wednesday takes its name from the ceremonial use of ashes as a symbol of penitence. This is traced back to the penance of sackcloth and ashes spoken of by the Old Testament prophets.

The word, Lent, so encyclopedias state, is derived from the Anglo-Saxon word Lenten meaning spring, and, as the fast falls in the early part of the year, by common usage, Lent is generally associated with the beginning of spring.

Thus we have new spring creations of clothing displayed for the first time on Easter, the climax of Lenten season. In medieval times, eating of meat, eggs and milk were forbidden during the Lenten season, both by the church rules and state laws. It is from this old custom that in the present day we have the Easter Eggs. During the siege of Orleans in 1492, the besieging army was nearly starved to death, because it was Lent and they had plenty of meat and other supplies, but little that they could eat.

Observance of Lent has been softened so that today in America in the Roman Catholic as well as in the Episcopal and Lutheran churches, no real conformation to the rules laid down for fasting is urged, a tolerant policy is observed and the devout are neither required nor expected to engage in fasting that might be injurious to health.

Farm Pay Lower, Survey Reveals

Washington.—Farm wages are lower than they were three months ago. Declines ranging from 3.1 per cent to 6.4 percent for various parts of the country are disclosed in the survey of the department of agriculture for the three months period of October to January. Day farm laborers for the country as a whole were averaging \$1.43 a day without board and \$1.47 with board, while by the month the average wage was \$40.80 without board and \$27.81 with board.

Party Entity Is Sought in Bill

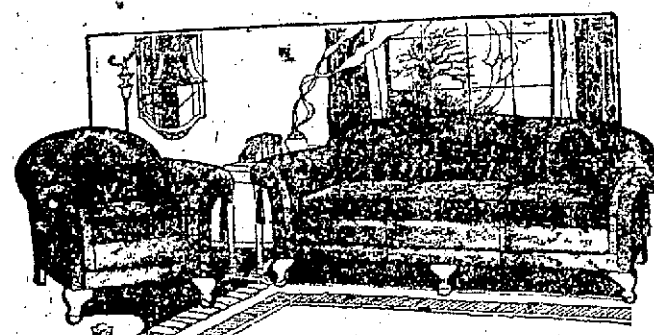

Madison.—Amendment of the 10 percent clause in the Wisconsin primary election law, to require that but five percent of the votes cast for a party candidate in the last general election would give the party a place on the next election ballot, was proposed Thursday by Assemblyman Richard Kamke, Merrill, the only democratic member of the legislature. His bill is introduced as a result of inability of democratic candidates to comply with the restrictions during the last election.

HOME FROM CONVENTION
George A. Jacobs, returned Thursday from Minneapolis where he attended the annual convention of the Northwestern Mutual Fire Insurance association, composed of the mutual companies of the northwest. The convention was held Tuesday and Wednesday.
